

Harpeth Trace Estates - Service Request to Newcomb Tree Service

Harpeth Trace seeks expedited removal of hazard limbs and trees along Harpeth Trace Drive (extent in orange) and in common areas of HTSA managed areas (in green). Work would include removing snags, widowmakers, barriers to roads or trails (including low overhanging branches in the right-of-way), threats to utilities, other hazard trees identified by the arborist, and any downed woody debris within the project extent. The project area extends from the HT entrance on Hwy 100 to the intersection of Harpeth Trace Drive at the Upper Harpeth Knoll Condos at approximately 36.0758, -86.8945 or 772 Harpeth Trace Drive.
